

Holiday postcard

This photo is from my trip to the Sokole Kuźnica. It presents a lagoon where I spend about one week in July. It was a wonderful time. Our aunt has a caravan there and she invited me, my brother and my parents. Every day was sunny and warm so we spent almost all time outside. We were walking around the forest, swimming in a lagoon and having fun together. I can talk about how amazing it was to sail a yacht or swim with ducks but it wasn't the best. My favorite thing was playing board games every evening. It was incredible, the night was warm and we were only in pajamas, sitting on a grass playing together. When I think about this place, I always have a smile on my face. Our caravan was on the edge of the forest. On one side was the forest but on the other side a lagoon. There are no words to describe how beautiful this place is. I would definitely recommend it for others. It's a magical place where everyone can spend extraordinary time.
