

My photo from holiday present **river Motława**, which lie in Gdańsk.

In this photo You can see calm waves and amazing rays sunny reverberant in aqua. Sky-blue had sprinkling clouds. I took this photo, when I walked with my family in Gdańsk. I was there with my parents and grandmother. We slept in pretty old tenement haus almost in city center. Looking at this photo remind me nice, warm, sunny and long days. Sound waves was restful. I was relaxed.

I feel joy, that I could spend there happy moments with my family, but equally I'm sad, because I miss for holiday, time with my friends and free time, when I could do nothing.

I recommend Gdańsk and this play everybody, who like seaside climate and calm.
