

HOLIDAY'S *Seaside*

VIEWS

The Pictures was taken by the German sea, in the Town of Norden. I managed to capture a beautiful sunset. I spent every evenings in the same way: walking by the sea and looking far i to the horizont. It helped me when I was in a bad mental state. Every Time I go to my Grandparents, I spend evenings by the sea, then I feel free from the World around me.

People are suprisingly nice there. Very often strangers wished me to have a good Day, asked to take care of myself or Just asked about my well-being.

Although the city is huge, there are plenty of Parks, Meadows and Fields. German make a big effort So that their towns are clear. I haven't seen the Park, where the trash would be scattered.

I recommend this place for everyone to visit!
