

## HOLIDAY POSTCARD

The photo was taken from the observation deck at the castle founded in 1956 in Lubovla, which is located in the eastern part of Slovakia.

The picture shows an amazing landscape of the highlands with a view of the settlement located about 2 kilometers away.

In the picture you can see a beautiful sky and clouds that cast a slight shadow over the local countryside. The photo reminds me of moments full of nostalgia.

The calm there was indescribable. People were cheerful and smiling to each other and the atmosphere was fabulous

I can certainly recommend this place to anyone who likes to feel inner peace and relax surrounded by nature
