

## HOLIDAY POSTCARD

*Last time, I was on holiday in Egypt with my parents. We went to the capital. (The capital of Egypt is Cairo). Our hotel was located in Hurghada. The trip consisted of visiting the Giza pyramids.*

*The photo shows the Mykerinos pyramid and camels. The Mykerinos pyramid is 62.0 m high. In Giza, you can also see the Cheops pyramid and Chephren pyramid. These buildings are in the desert. There are sixty-seven pyramids around Cairo today. The most original interior design has been preserved in the Mykerinos pyramid.*

*The photo arouses positive emotions in me. Seeing the pyramids and camels was very fascinating for me. I like the culture in Egypt and the local climate. The people living there accept tourists. They are very polite.*

*I highly recommend this place for a vacation trip. It's very hot in there. The sight of the monumental pyramids is wonderful. It is great to see camels not only in the zoo.*
