*Cinderella Castle, Florida*

The building I chose to paint is Cinderella Castle. It is located in Magic Kingdom in Florida. I decided to paint it in cartoon style because Disney is known for its cartoons and animations. I used acrylic paint, watercolours and a golden pen to create sparkling details. In my opinion, it is a very impressive building not because it is the biggest or the tallest, but because it makes you feel like in a real fairytale. It makes adults forget about adulthood problems and come back to their childhood. For children, visiting it becomes an unforgettable memory that will stay with them for many many years.

The building was inspired by the castle in the Disney film "Cinderella". It has been under construction for just 18 months. The castle is 58 m tall and is surrounded by a moat. I believe it's fascinating that there are a total of 27 towers. Inside the building, you can find a handcrafted glass mosaics that tell the story of a Cinderella. There is also a beauty salon, where kids can be turned into princesses and knights. Lastly, you can meet there a Cinderella herself and even book a one-of-a-kind dinner with her!

I think a castle always defines the Disney theme parks. It's very iconic because every Disney film starts with a castle in the introduction. What I find interesting is that different parks have different castles from different films, for example, in Honk Kong we can see Sleeping Beauty castle or Enchanted Storybook castle in Shanghai. The Cinderella one is actually pretty common because there are three of them, in Florida, Paris and Tokyo. But it doesn't mean it's any less breathtaking or beautiful. The castle in Florida has been recently renovated. They changed the colour scheme a little bit which makes it even more wonderful than before.

What makes Disney theme parks outstanding is the fact that decorations in the park as well as on the castle change every season and before every holiday. It's incredible how different the parks can look depending on the part of the year, it just makes you wanna visit them every month to check how they've changed!

Another really great aspect of the castle is what happens to it in the evening. As the sun sets the castle is being prepared for the ball. In a accompany of fireworks and music in the background, the castle gets illuminated by millions of lights and becomes the centre of the show that you simply cannot miss!
