

What does Santa want for Christmas?

When the Christmas are coming, kids all around the world make their gifts lists. Some want a new doll, the other want a new phone. They write to Santa about their wishes. But.. Has anyone ever wondered what does Santa wants for Christmas? Every year he reads our lists, he fulfills our wishes, but no one cares about his needs. No one cares about Santa. Maybe he wants a new sleigh or a new jacket? Maybe he wants to come to our house, eat the Christmas supper with us? We will never know what Santa wants, until we ask him. Every year we give him some cookies and a glass of milk so he can eat something when he comes. But what if he doesn't tolerate lactose and he pours the milk out of the windows? What if he prefers an orange juice than the milk? What if he wants a butter cookies and not the chocolate ones? What if he doesn't want cookies or milk but he just wants to see us happy? We have never asked him about it. We don't really know what does he want. This year we should ask him about it. He would be really happy. When we will send him our lists we also should ask him about his wishes. Imagine that the middle-aged man, who always cares for others receives this much questions about his needs. Wouldn't it be amazing? His smile, his happiness? We should show him our love and gratitude for everything he did for us. Santa made our childhood unforgettable. Let's show him our kindness.
